

# ENDO-K PRO

## Intercorneal Implant for Corneal Transplant

<i>Brand name</i>	<b>ENDO-K PRO</b>			
<i>References</i>	<b>EQP75</b>	<b>EQP80</b>	<b>EQP85</b>	<b>EQP90</b>
<i>Outer diameter</i>	7.50 mm	8.00 mm	8.50 mm	9.00 mm
<i>Description and Indications</i>	<p><b>Characteristics:</b></p> <ul style="list-style-type: none"> <li>• Double circular ring with different diameters.</li> <li>• PMMA single piece.</li> <li>• No injector needed.</li> <li>• Easy manipulation and integration.</li> </ul> <p>Medical device PMMA for ophthalmological use, indicated for its implantation between the patient's corneal endothelium and the donor corneal graft in corneal transplant surgeries. ENDO-K Pro helps to avoid unwanted secondary effects the leading to failure of the surgical intervention.</p> <p>In general, ENDO-K PRO device allows to:</p> <ul style="list-style-type: none"> <li>• Mechanically separate the patient's corneal endothelium and donor corneal graft.</li> <li>• Enhance corneal graft survival.</li> <li>• Prevent unwanted secondary effects prevention in corneal transplant surgeries.</li> </ul>			
<i>Material</i>	Polymethyl Methacrylate (PMMA) with UV filter			
<i>Sterilization method</i>	Ethylene oxide (EtO)			
<i>Presentation</i>	Unitary implant, sterile packaging			
<i>Shelf-life</i>	4,5 years
