Vitreco

About Vitreq

Vitreoq creates products for the ophthalmic society with a special focus on vitreoretinal surgery. Our products are perfectly matched to your needs. Fluid design that is achieved through working hand-in-hand with leading, innovative surgeons from all over the world:
That is our vision.

With many years experience in design, production and marketing of high quality products, Vitreοq develops reliable and safe, next generation solutions that enhance performance and support advanced surgical techniques.

Product design

Vitreοq's skilled team of R&D, engineering and tool-making experts work together with vitreoretinal surgeons to develop new products that lead vitreoretinal surgery forward. Dedicated to continuous improvement, they are flexible, yet focused, enabling us to respond rapidly to our customers' needs.

Product manufacturing

With in-house manufacturing capacity, all the components required for Vitreοq products are manufactured and assembled in our own, purpose-built, and ultra modern production facility, using state-of-the-art assembly methods. All production is managed and controlled to the highest international quality standards.

Light Fibers

Vitrex Light Fibers featuring high-end specifications with consistent quality performance for ophthalmic endo-illumination procedures.

Rigid shaft

- New hardened metal shaft reduces flexibility by 25%.
- Reduced bend ability improves surgical control.

Ergonomically designed handle

- Ergonomic handle design for improved intraocular surgical control and precise surgical manoeuvres.
- Compatible with most endo-illumination systems due to light source adaptor.

Light Fiber tip design

- In Standard, Wide View and 45° Shielded tip designs.

Wide range of sizes

- Available in 20, 23, 25 and 27G with colour coding for identifying gauge size instrument.

Standard light fibers

Straight tip for focal endo-illumination.

Wide view light fibers

Wide view tip for global endo-illumination.

45° shielded light fibers

45° shielded wide view tip for shielded endo-illumination.

Light Source Adaptors

The Vitreo Light Fibers are compatible with most endo-illumination systems in combination with Light Source Adaptors:

- Constellation® Light Source Adaptors
- Stellaris® Light Source Adaptors
- Geuder® Light Source Adaptors
- Ruck® Light Source Adaptors
- DORC® Light Source Adaptors
